Contribution TRENDS

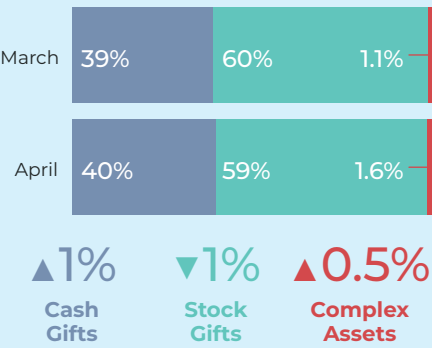

Self-Directed and Advisor-Supported

Pooled and Separately Managed

Cash Gifts, Stock Gifts, & Complex Assets

“ Last month there was a spike in grants supporting international affairs and disaster relief efforts. This month those numbers dropped by half. Maybe what changed isn’t the support for the war, but rather the organizations through which that support was given. For instance, individuals who elected to support religious organizations, which received the most grant support last month, may have earmarked their grants for Ukraine relief efforts.
