

Our Mission Is Powering Yours

Ren's technology and services powers the nation's leading donor-advised fund programs, enabling advisors to offer their clients a world-class giving experience.

\$200B+

Charitable assets supported

150+

Unique DAF programs powered

60%

of U.S. DAF assets run on Ren technology

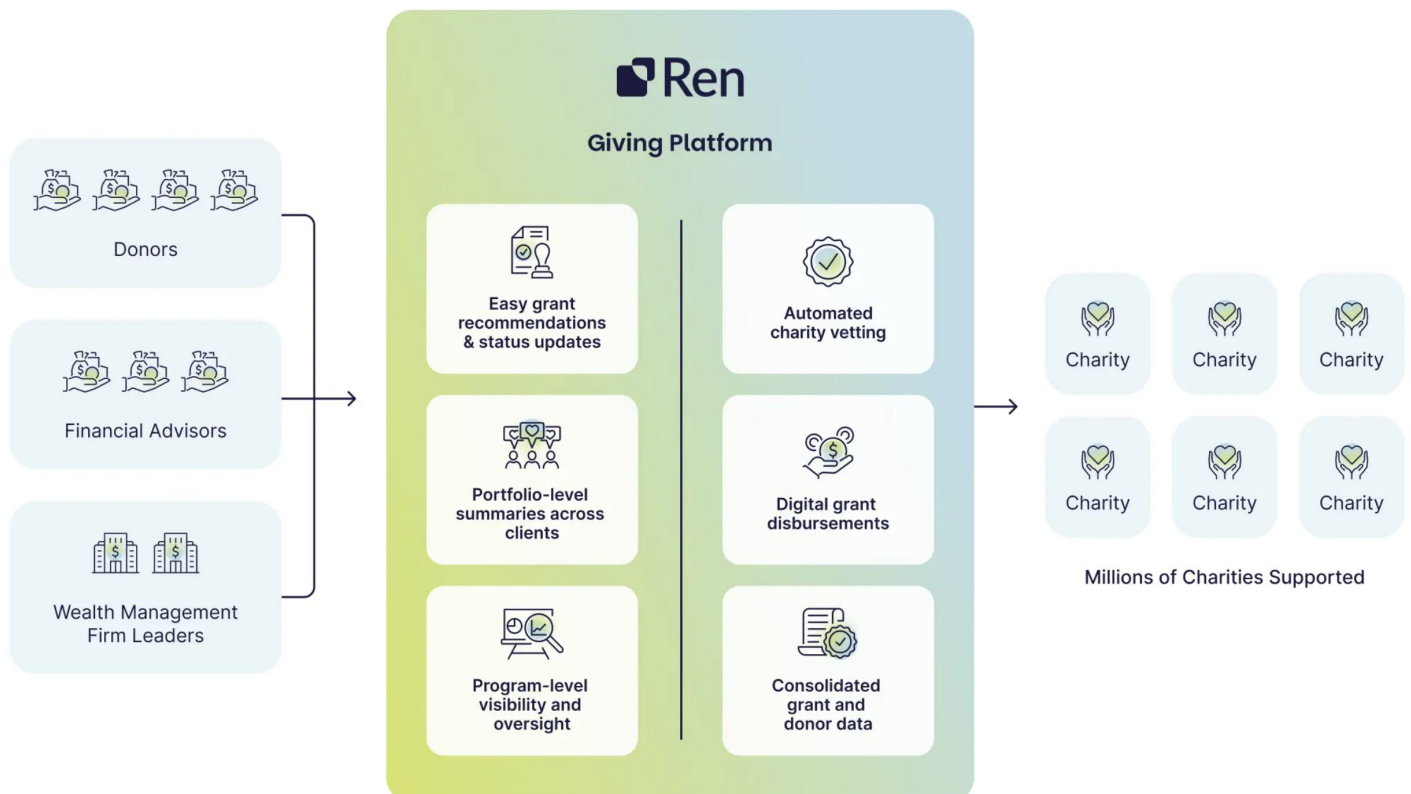

40+

Years of institutional service

Ren's Giving Platform

Powering more than 60% of the nation's donor-advised funds and more than \$200B in charitable assets supported.

One Platform. Every Stakeholder. Infinite Impact.

Ren's Giving Platform is designed for

Donors who want to give without a headache

Financial advisors who guide strategy and manage client accounts

Charities that need reliable funding with less administrative friction

Wealth Management Firms where security, compliance, and client trust are the top priority

Built for Modern Giving

Rapid Disbursement Engine – delivering unmatched speed and reliability, over half of grants are instantaneously approved. With digital disbursement and payment available by ACH, charities can put funds to work faster while reducing fraud risk by 99%+.

Automatic Charity Vetting – once a charity is validated, it's trusted across the entire platform, streamlining compliance with DAF regulations and reducing manual work for everyone.

State-of-the-Art Security – ACH payments and positive pay protections virtually eliminate check fraud, while enterprise safeguards protect donor and firm data.

Massive Reach – each year, we send grants to over 130,000 charities worldwide, trusted by leading organizations like St. Jude and the American Red Cross.

Trusted by the World's Leading Wealth Firms

Ren's Giving Platform powers donor-advised fund programs across banks, RIAs, and wealth management firms nationwide.

Every grant runs through a single, secure platform — creating efficiency, consistency, and confidence for all. More than half of all U.S. donor-advised fund assets are powered by Ren.

How Firms Partner With Ren

Ren offers three ways to work together depending on how involved your firm wants to be:

Ren provides sponsoring charity options so your program has the legal framework for tax-deductible giving in place from day one. You don't have to create your own nonprofit. We have it covered.

As a Platform Partner, implement a dedicated instance of our giving platform with firm-level admin permissions, program reporting, and central cashiering for faster grantmaking.

As a Branded Partner, bring Ren DAFs fully in-house under your firm's brand. Your logo appears across the platform interface, advisor and client communications, and grant letters. All the infrastructure, all the credit.

Sponsoring Charity Options

Ren provides sponsoring charity options so your program has the legal framework for tax-deductible giving in place from day one.

The sponsoring charity depends on your firm and personal preference. Visit us at reninc.com to learn more about why 60% of DAF assets run on Ren technology.
